Definitions

Family: A household or family is defined as a group of related or unrelated individuals who are living as one economic unit.

Income: Income is the money received by any member of the household before such deductions as taxes and Social Security. It includes the following: salary or wages; earnings from self-employment, Social Security, pensions, retirement and disability payments; and other cash income received or withdrawn from any source which would be available for payment of a child's meal. Food Stamp benefits are not included.

Current income is determined by the income received by all members of the household during the month prior to application. But if this income was much higher or lower than usual, the expected income for this year (12 months starting from the month prior to application) should be used. For example, self-employed people such as fishermen and farmers should use yearly income.

We can't approve your application unless it's complete. The information you give us on your application may be checked at any time. You may apply for free or reduced price meals at any time during the school year if your situation changes. If you become unemployed, your child(ren) may be able to have free or reduced priced meals based on your unemployment income. If we deny your free or reduced price meals application, we will give you a chance to appeal the decision.
